Ngũ Hành Sơn district, Da Nang City, Vietnam

Experience

Hodfords

Software Tester cum BA

October 2023 - Present (1 year 6 months)

Da Nang City, Vietnam

Joined a project (1. Social Networking Webapp, 2. ESG Reporting, 3. Employer Management - internal product)

As a Tester:

- Study overall project and the requirement of user stories.
- Create checklists, test plans (test cases), test data for testing.
- Execute UI testing, system integration testing, regression testing, smoke testing.
- Set up environment, chaining API, using dynamic variable, create testscript using JavaScript in Postman to perform API testing. Verify the functionality and validation for each API before FE integrated with UI.
- Using logical business flow to create test case for each payment status. Access database by PostgreSQL, updating data and run CronJob by Postman to execute test that verify all of status.
- Verifying system synchronization with Hubspot, Keycloak, and Stripe.
- Confirm and report bugs. Manage task by Jira.

As a Business Analyst (Employer Management - internal product):

- Research document for a new feature and draft a basic user flow
- Work with the Designer to make the design, review, and finalize the design
- Analyze and develop requirements into epics, user stories, specifications
- Control the progress and sprint timeline to meet the release planning
