Dan Nguyen

AI Engineer

Ho Chi Minh City, Vietnam

Summary

As a diligent AI Engineer / Backend Developer, I am passionate about advancing my expertise in AI, with a focus on Natural Language Processing and Computer Vision. I am committed to efficiently and ethically implementing AI solutions in production. Seeking a dynamic and innovative work environment to deepen my technical knowledge and willing to take on any challenging task to prove myself worthy of a position in the company.

Experience

Namitech

AI Engineer

October 2024 - Present (6 months)

Ho Chi Minh City, Vietnam

Hephaestus Technology

AI Engineer

June 2023 - December 2023 (7 months)

Ho Chi Minh City, Vietnam

- Core team member of a chatbot project specializing in analyzing and visualizing financial reports, balance sheets, and other types of documents.
- Responsible for implementing all QA, translation, and OCR functions.
- Contributed to setting up the storage and database systems on AWS.
- Kept track of the overall project progress and helped merge several separate features into one coherent pipeline.
- Contributed to building a syllabus on how to build your chatbot using LangChain.
- Frequently communicated with an American manager about the status of the project and the morale of the team.

Education

Ho Chi Minh City University of Technology
