Tam Nguyen

Software Tester
Da Nang City, Vietnam

Summary

Hi everyone, I'm Tam, I'm 24 years old.

I bring nearly two years of manual testing experience, with an emphasis on regression testing, integration testing, functional testing, and API testing across both website and mobile platforms. In my previous roles, I have also gained extensive experience working with databases, specifically MS SQL Server.

I pride myself on being a positive, motivated, and hard-working individual with a strong inclination to learn and contribute to team successes. I am confident that I can bring a high level of dedication and enthusiasm to all tasks assigned to me.

Experience
