Khai Nguyen

Senior Project Manager PMP® (PMI-ACP)® | Scrum Master | MES
Specialist
Ho Chi Minh City, Vietnam

Summary

With expertise in Agile, Scrum, and Hybrid project management, I drive flexible and impactful solutions in both software outsourcing and product development. My background in MES (Manufacturing Execution Systems) and ERP (Enterprise Resource Planning) implementations allows me to deliver comprehensive solutions that align with business goals and foster sustainable growth.

I've successfully managed diverse on-site and remote projects, from full implementations to software development, enhancements, and product lifecycle management. My focus remains on creating functional, high-value products and solutions that deliver tangible results for clients and businesses alike.

Experience

Yokogawa ASEAN

Project Manager
August 2024 - Present (8 months)

Managed the end-to-end lifecycle of an IIoT project, driving planning, system design, implementation, and optimization. Collaborated with cross-functional teams to align objectives, streamline workflows, and deliver high-quality outcomes. Oversaw a team of 50+ professionals while ensuring stakeholder expectations, timelines, and budgets were met. Delivered clear, actionable reports and effectively addressed risks to maintain project momentum and success.

FPT Software

Project Manager / Scrum Master
October 2021 - August 2024 (2 years 11 months)
Ho Chi Minh City, Vietnam

Experienced in managing Agile/Scrum projects for GE Renewable Energy, overseeing cross-branch program management, and developing strategic

plans aligned with business objectives. Skilled in stakeholder engagement, resource allocation, and effective communication to ensure project success.

Nghi Son Refinery and Petrochemical Limited Liability Company

MES Specialist / Project Manager

September 2018 - September 2021 (3 years 1 month)

Vietnam

Oversee MES software systems, leading projects for upgrades, replacements, and implementations. I manage both internal and external teams, ensuring seamless integration between MES and other enterprise systems to maintain smooth operations and successful project delivery.

NETiKA

Enterprise Resources Planning Consultant

November 2017 - September 2018 (11 months)

Vietnam

Business Consultant with expertise in implementing Microsoft Windows NAV 2016/2018 in the agricultural industry. Managed functional design, implementation, and testing of core Dynamics NAV granules and add-ons, while coordinating with the Support Team to resolve customer issues efficiently.

Avenue JSC

3 years 9 months

Senior Consultant

July 2016 - October 2017 (1 year 4 months)

Spearheaded the implementation of Asset Management KPIs using Cognos and successfully upgraded the Data Warehouse with data replication using GoldenGate for Binh Son Refinery Ltd.

Business Consultant

January 2016 - June 2016 (6 months)

Managed the migration of the Maximo database from DB2 to SQL Server and supported integration checks with SAP. Led the implementation of Maximo v7.5 and MaxiSun integration at Bien Dong Petroleum Operating Company.

Technical Consultant

January 2015 - December 2015 (1 year)

Implemented Maximo v7.5 Work Management and provided post-support at Bien Dong Petroleum Operating Company, as well as contributed to the implementation at Lam Son Joint Operating Company.

Developer

February 2014 - December 2014 (11 months)

Vietnam

Developed functions and new features for Maximo, as well as customized existing solutions using Python, Java, SQL, and BIRT reporting.
