PyTorch

# Nguyen Huy Anh

Open work for AI Engineering internship.

Ho Chi Minh City, Vietnam

## Experience

University of Science and Technology of Hanoi - USTH

4 years 9 months

Internship AI Engineer

July 2020 - Present (4 years 9 months)

- This app will detect 15 landmark points in insect wings.

Internship AI Engineer

July 2020 - Present (4 years 9 months)

- Identify intersections on insect wings with deep learning model

HAD tech

Internship AI Engineer

December 2019 - July 2020 (8 months)

- Create OpenCV Filters for Kurento Media Server

MaSSP - Math and Sciences Summer Program

Student Volunteer

June 2019 - July 2019 (2 months)

- Introducing summer camp to the high school for gifted students with online and offline PR

MaSSP - Math and Sciences Summer Program

Summer Student

June 2018 - July 2018 (2 months)

- Study about basic machine learning algorithms
- Develop a project on simple license plate recognition

---

## Education

University of Science and Technology of Hanoi

Bachelor's degree, Information Technology · (2018 - 2021)

Hanoi National University of Education high school for gifted  
students  
· (2015 - 2018)
