Résumé

As a Senior AI Engineer, my passion for machine learning and AI translates into pioneering solutions and advancing the field of artificial intelligence. With a strong foundation in applied mathematics and informatics from Hanoi University of Science and Technology, I leverage deep learning techniques to improve and innovate products and services.

Within our team, we focus on developing complex neural networks that are integral to our success. My goal is to continue pushing the boundaries of AI technology, ensuring that the work we do not only meets but exceeds industry standards.
