Hau N.

Junior UI UX Designer | Passionate Design System Enthusiast
Ho Chi Minh City, Vietnam

Summary

As a UI UX Design, I have 1,5 years of experience in this UI UX Industry. My passion for UI UX drives my dedication to staying up-to-date on the latest trends and techniques in my field.

In my current role as UI UX Designer, I am responsible for and skilled in collaborating with cross-functional teams, including product management, engineering, and marketing, to define and implement innovative design solutions that meet business and user requirement, creating wireframes, prototypes, user flows, and high-fidelity mockups to communicate design ideas and gather feedback, conducting user research, including usability testing and user interviews, to inform design decisions and improve the user experience, developing and maintaining design systems and style guides to ensure a consistent look and feel across products and projects.

Outside of work, I am active in the UI UX community and enjoy Sharing my knowledge. I am always looking for opportunities to connect with like-minded professionals and learn from others in the industry.

I am excited to continue growing my career and making meaningful contributions to the field of UI UX Design
