Software Engineer | Frontend-First Full-Stack Dev | React/Next, Vue/  
Nuxt, Svelte, Node.js/NestJS, Laravel  
Ho Chi Minh City, Vietnam

## Summary

I'm a frontend-first full-stack software engineer with a strong focus on modern JavaScript frameworks. I specialize in building responsive, high-performance web applications using React, Next.js, Vue, Nuxt, and Svelte on the frontend, and Node.js, NestJS, and Laravel on the backend.

I care deeply about clean code, scalable architecture, and delivering great user experiences. Whether it's crafting dynamic UIs or designing RESTful APIs, I'm always driven by curiosity and a passion for learning new technologies.
