Khang Nguyen Hoang

DevOps Engineer @ Favie tech | GitLab, Linux, Kubernetes
Ho Chi Minh City, Vietnam

Summary

As a DevOps Engineer at Favie tech, I help developers build and deploy scalable and reliable applications using Google Kubernetes Engine (GKE), Kong API Gateway, and Linux System Administration. I have three certifications in Continuous Integration and Continuous Delivery with GitLab, Linux: Network Configuration, and Introduction to Network Routing, which demonstrate my skills and knowledge in these areas. I have over two years of experience in DevOps, working with various clients and systems, including an on-premise banking system at Minerva and a web hosting service at Vinahost. I am passionate about spreading the love with developers, enabling them to deliver high-quality software faster and easier. I am always eager to learn new technologies and tools, and to collaborate with other professionals in the field.

Experience

Favie tech
