Hong Phuc Nguyen (Aaron)

UI & UX Designer
Ho Chi Minh City, Vietnam

Summary

I have almost 3 years of experience in UI & UX design. With knowledge accumulated in the process of studying and working, I set a goal for myself to come up with the most intuitive, easiest to use and most convenient designs because I always put the experience and feeling of users first. Besides, in addition to promoting what I have cultivated during the working process, I still do not hesitate and am always willing to absorb and learn new knowledge because I always think that "Diligence in place of intelligence".

C-Suite provides a set of solutions to fully digitize the necessary business processes and operations, ensuring that tasks are handled without interruption. Cloud computing technology allows users to access and manage anytime, anywhere with an internet connection. In addition, a reminder system to prevent errors and work drift and a proactive reporting system to support management leaders and make the most accurate decisions.
