As the HR business partner, my role revolves around talent acquisition and ensuring compliance with labor regulations. I am responsible for developing a comprehensive recruitment plan that aligns with the approved labor demand and staffing regulations. This involves executing various recruitment operations, including conducting interviews, analyzing interview results, and finalizing probation and employment contracts.

In addition, I oversee the creation of annual professional training and retraining plans by evaluating the training needs and requirements of different units within the organization. Through meticulous record-keeping, I ensure the smooth implementation of these plans while complying with the approved professional training standards.

Furthermore, part of my responsibilities involves facilitating the payment of benefits and interests to employees in accordance with the approved compensation plans.

Through my expertise in talent acquisition and my close collaboration with key stakeholders, I strive to drive the organization's HR processes forward while maintaining a professional tone of voice.
