Thế Nguyên Phạm

Software Engineer

Ho Chi Minh City, Vietnam

Summary

- 1997 's.
- I want to be a Full-stack developer. However depending on the job requirements I can work with only front-end or back-end.
- Strengths: Fast adaptability to spring boot, angular 5+, nodejs projects.
- I want to work in a friendly environment to learn more knowledge while demonstrating the abilities and knowledge I have cultivated.
- In the coming time, I want to learn, improve my skills and my programming mindset. That was the springboard for me to develop more in my career.
- I want to apply the position of junior developer.
