Technical Assistance

Thuy Nguyen Thi Bich

Project Manager at SNV
Vietnam

Summary

I got a Forest Sciences master's degree at CSU, USA and a Ph.D. degree in Forestry VN. Currently, I'm a manager of the "Mangroves and Markets" project at SNV, which promotes Ecosystem-based Adaptation (EbA) through sustainable aquaculture and mangrove conservation. Some thousands of shrimp farmers are resilient to CC impacts while maintaining mangrove forests and inclusive business to Profit for Ecosystem Services. Previously, I worked for Winrock International, a conservation finance manager, USAID-funded regional program (Asia Regional Biodiversity Conservation Program). My goals are dedicating to the community (people/environment) with enthusiastic efforts by fast learning and adapting strategy to my team wherever I'm approaching to.

Experience
