Summary

With over 9 years of experience as an Infrastructure Engineer/ DevOps professional, I also excel as a team leader. My expertise spans DevOps automation, containerization, and orchestration using CI/CD, Docker, and Kubernetes. I've led teams in crafting robust on-premise and cloud infrastructures, collaborating closely with architects for top-tier designs on MS Azure Cloud. Additionally, I oversee application administration, troubleshooting, system automation, scripting, and project execution. My track record includes setting up tailored Azure Cloud infrastructures and effectively managing CI/CD pipelines.
