Nguyen Thai Lam

Principal Software Engineer
Ho Chi Minh-Ville, Việt Nam

Résumé

I'm having over 9 years of working in the Software industry. During 8 years as a Software Engineering and 1 years working hybrid as a shadow Project Manager, I have much experience in developing software based on MS language (ASP.NET, SQL Server) or JS framework (ReactJS, NodeJS Express) and leading a team to archive success, I also have knowledge on:

- Business Analyst
- Problem-solving
- Time management
- Manage and lead teams with over 5 members
- Project Management
- DevOps AWS

I had worked for many companies and stayed in many positions such as Senior Software Engineer, Team Leader, Technical Leader, Web platform manager, and Project Manager Shadow.

I think with my intelligence and ability I can contribute my best to complete every task with the best performance.
