Work in FEMA Project(FE Credit): Develop full server-library flow for LiveChat, support other colleagues on various features.

- Server:

+Write APIs to call client Apis(Json, Xml), get resp and modify to send back to the library.

+Write lambda Aws to host URI for library to call APIs, writing business logic based on requirements.

+ Write automation test(flow test) for some features.

+ Write query to fetch, modify data in MySQL.

+ Write flow log, and specify errorCode for FrontEnd to catch and show on UI.

- Library:

+ Write swagger.

+ Write service modules for FrontEnd to call APIs, make sure FrontEnd receive response appropriate from Server.

+ Write test based on flow FrontEnd call APIs.

+ Makefile to build library for mobile team(Ios and Android).

-Other skills:

+ Postman: write test, pre-script for flow test for some features.

+MySQL database administration: check data for testing on server, modify data to support QC teams to test.

+Git: revert when there is error in new build, fixing merge conflict, pull request to main branch.

Công Ty Cổ Phần Tư Vấn Xây Dựng Điện 3( EVN PECC3)
