Khoi Nguyen Nguyen Tan

Software Developer at FPT Software
Da Nang City, Vietnam

Summary

I have 3 years of experience in Web Application Development with Java Spring Framework(MVC , Restful API). Beside that I have some experience in working with .Net Framework (Web API , Desktop ,...) , ReactJS , NodeJS, designing DB in small project .

I have experience in working in a small team (2-3 people).

In 3 years I have worked with some Database such as MySQL , Oracle Database.

In my current project , I have worked on PL/SQL , writing SQL , writing procedures , triggers,... with Oracle Database.

I always want to become better and better days by days in my major.

I can research and self study new technologies
