Nguyen Le, PMP, CTAL-TM

Senior Project Manager

Vietnam

Summary

Nguyen is a resourceful and experienced Manager. He is not afraid to tackle complex issues and embrace new technologies to lead the team to success. He has over 12 years of successful track record in leading and delivering large-scale projects. Recently he led a 5-million-dollar Data Program (from Collection, Management to Analysis) to develop AI/ML based vehicle's autonomous driving features.

Nguyen is highly proficient in developing various products and industries: Machine Learning, Car Software (Automotive), Banking, and Data Engineering. Nguyen has also consistently demonstrated strong leadership skills in managing large and effective functional teams. With a talent for investing in and nurturing people, Nguyen has successfully delivered complex projects by fostering a culture of collaboration and teamwork.

In addition to project management, Nguyen has hands-on experience in diverse areas such as business development, sales and pre-sales, procurement, bidding and tendering, supplier management, and negotiation
