## Summary

Motivated and experienced engineer seeking a full-time position in the English speaking market. With a deep passion for engineering, I am driven to excel in my field and earn the trust and reliability of my peers. Over the next 5 years, my goal is to continuously expand my knowledge and understanding while advancing my career within an established company. I bring a strong work ethic, dedication to continuous learning, and a collaborative mindset to contribute to the success of the organization. I am excited to embrace new challenges, demonstrate my skills, and make a positive impact in a dynamic work environment as I strive towards becoming an excellent engineer.

## Experience

**Viettel Solutions Corporation**
DevOps Engineer
December 2021 - Present (3 years 4 months)
Da Nang City, Vietnam

- Maintainer of Viettel Backendless system - VBS provides Low-code, No-code solutions from Back-end to Front-end to help easily build applications quickly without too much programming skills.
- VTS KIT system development engineer - VTS KIT is a pre-developed framework, inherited and contributed from VTS production units, with the aim of making application development faster and easier.
- DevOps engineering - Intelligent Operation Center (IOC) project of the Smart City Command Center.

## Education

**Danang University of Science and Technology**
