# Nguyen Van Lau

Frontend Developer at FPT Software

Ho Chi Minh City, Vietnam

## Summary

Frontend Developer | Angular Specialist | Aspiring Full-Stack Developer

I am a professional front-end developer with experience in building web applications using Angular, especially projects utilizing Angular 18 and standalone components. Currently, I am expanding my knowledge into backend development with .NET, aiming to become a full-stack developer.

In addition, I am actively improving my language skills to prepare for opportunities to work. With a solid programming foundation, attention to detail, and a continuous learning mindset, I am always ready to face challenges and grow personally and professionally.

Key Skills:
• Angular, TypeScript, HTML, CSS
• Cross-platform application development with Flutter

Objectives:
• Work in an international environment
• Advance my expertise in software development (full-stack)

---

## Experience

FPT Software
4 years 9 months

Dental AI
