Nguyen Minh Hieu

Software Engineer
Da Nang City, Vietnam

Summary

Currently, I am working on both the Front-end and Back-end aspects of the project. I strive to deeply understand the needs of customers while effectively collaborating with team members to contribute to the overall success of the project. Additionally, I have experience working with ReactJS and NodeJS to build high-quality, visually appealing, and user-friendly websites. I am available to work within the GMT/UTC +7 time zone, ensuring flexibility and efficiency in my work.
