Experience

OPSWAT
2 years 2 months

Senior Software Engineer
October 2023 - Present (1 year 6 months)

Join the MyOPSWAT Product Management team, where I take on a multifaceted role:
- Innovating, developing, and maintaining products.
- Collaborating with OPSWAT products and stakeholders on new features.
- Technical expertise:
++ Backend: Go, Java
++ Front-end: React, Angular

Additionally, I research and develop automation test repositories, integrating new technologies into CI/CD pipelines.
- Automation Testing: Playwright, TypeScript

Middle Software Engineer
June 2023 - October 2023 (5 months)

This blend of responsibilities enables me to lead the Front-end Team effectively while actively contributing to feature development and system integration across the tech stack.

Software Engineer
February 2023 - June 2023 (5 months)
Vietnam

As the Front-end Lead of the MyOPSWAT Portal Team, I:

- Collaborate with Business Analysts to understand customer needs.
- Work with Designers to ensure seamless UI/UX.
- Integrate third-party services like OpenAI.
- Develop with ReactJS, NodeJS, NestJS, and GraphQL.

Hahalolo Travel Social Network
