Rita Nguyen

UX Designer | The more you learn, The more you earn.
Ho Chi Minh City, Vietnam

Summary

I specialize in designing intuitive digital products through user research, wireframing, prototyping, and usability testing. With experience in fintech, e-commerce. I collaborate with cross-functional teams to craft engaging and accessible interfaces. I also support presales efforts, translating client needs into interactive prototypes and design strategies.

Experience

FPT Software
UI/UX Design
March 2020 - February 2025 (5 years)
Ho Chi Minh City, Vietnam

- Collaborated with sales teams to create compelling UI/UX proposals and presentations for potential clients.
- Designed intuitive and user-centered interfaces for web and mobile applications.
- Created wireframes, prototypes, and high-fidelity designs using Figma/Sketch/Adobe XD.
- Collaborated with cross-functional team to ensure seamless implementation.
- Developed and maintained design systems for consistency across platforms.
