Khoi Nguyen Xuan Minh

AI Engineer
Ho Chi Minh City, Vietnam

Summary

I was an engineer who graduated from Ho Chi Minh City University of Technology with a degree in Telecommunications Engineering before dabbling in data science and analytics.

Working as an engineer in college gives me opportunities to access and adapt to many kinds of incredible technologies. However, deep down, my passion lies in discovering insights from datasets and understanding the behavior in order to make more significant and more practical applications in any industry that I'm working on. I have experience and expertise in:

- Advanced Python Programming, Data Analytics, and Practical Statistics such as OOP, JSON, SQL, Regex, Naive Bayes, Regression, Multiple Linear Regression, Logistic Regression, and Data Visualization.

- Good knowledge in Machine Learning and Deep Learning such as SVM, Random Forest, XGBoost, Clustering, Text Mining, Computer Vision, and Natural Language Processing.
