# Hieu Nguyen

DevOps Engineer

Ho Chi Minh City, Vietnam

## Summary

I'm a Vietnamese Open Source and V Contributor, DevOps
enthusiast, and Coffee Lover that is constantly learning new things
and eager to explore new ideas.

Actually, I've spent a significant amount of time developing and
creating boilerplate code for a framework to assist me speed up and
save time coding. I'm always seeking for a new solution or tech stack
to help save time for building, compiling code, or other meanings in
my life.

To be honest, my first job in my career was in IT Helpdesk, where
I worked for around two years before realising I needed coding
abilities, which is why I abandoned my previous job to pursue a new
one.
